Includes

- 1 Helmet
- 1 Quick Start Guide
- 1 Power Adapter
- 1 Wall Mount Kit

Getting Started

What you need to get started:

Installation

Step 1

-  Verify that your phone or tablet is connected to a Wi-Fi network.
** Your router must provide Wi-Fi connection for Internet access.*
-  Connect the power adapter to the back of your camera. Wait until you hear the startup jingle.
-  From App Store or Google Play, download the **iFamCare** App onto your supported device (phone/tablet).

Step 2

-  Launch the app and tap "Install a New Camera"
 -  Enter your password and follow the instructions.
- * If you enter your Wi-Fi password wrong, reconnect the power adapter then follow Step 2.*
- ** If you have an account on iBaby Care App, you can simply login with your existing account information.*

Installation Failure or Router Change?

-  Make sure your phone/tablet is connected to a Wi-Fi network.
-  Your router must be set at 2.4 GHz frequency. Please do not use 5 GHz.
-  In case of failure or router change, reset the monitor by holding the reset button at the back of the monitor for 20 seconds until you hear a jingle.
-  Put the monitor in 10 feet of your router until the installation is done.
-  This camera is high definition, please ensure having an Internet speed of at least 3 Mbps.
-  If any video loading issue, please lower the resolution through Settings > Display Settings.
